DETAILED ACTION

Receipt of Amendment

1. Receipt is acknowledged of the amendment filed 23 August 2002.

Terminal Disclaimer

2. The terminal disclaimer filed on 23 August 2002 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of US patent no. 6,216,953 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) do not apply to the examination of this application as the application being examined was not (1) filed on or after November 29, 2000, or (2) voluntarily published under 35 U.S.C. 122(b). Therefore, this application is examined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

4. Claims 50 and 52 are rejected under 35 U.S.C. 102(e) as being anticipated by Wike, Jr. (US 5,198,650).

Wike teaches a stand 32 on which an optical reader 20 is mounted, comprising a stand member 30 on which the reader is mounted in such a manner that the grip of the reader (housing 22) extends lateral beyond a lateral side of the stand member and a read window 26 of the reader faces in a lateral direction. The reader is mounted such a scanning pattern emitted from the window is transmitted in a horizontal orientation.

Allowable Subject Matter

5. Claims 51 and 56 are allowed.
6. The following is a statement of reasons for the indication of allowable subject matter:

Regarding claim 51, the teachings of Wike, Jr. (cited above) teaches the stand with a stand member on which the reader is mounted. The art also can be interpreted to contain a holder section in which the grip can be dismounted freely and a base for supporting the section. However, in light of the terminal disclaimer filed as stated above, this and other prior art of record fail to additionally teach that the holder section pivots within the base and that the stand member has a tongue, which is inserted into the holder section so that the tongue can be removed freely.

Regarding claim 56, the prior art of record fails to teach or suggest an optical unit with an optical part having a specific first and second stems formed coaxially on opposite edges thereof, a third stem formed in parallel with the second stem, and a frame on which the part can rotate

axially on the first and second stems, as claimed in the limitations, on which the optical part is mounted.

Response to Arguments

7. Applicant's arguments with respect to claims 50 and 52 have been considered but are moot in view of the new ground(s) of rejection.

Regarding claim 50, the Examiner contends that the art of Wike, Jr. teaches the well known method of mounting an optical reader in a stand in a laterally facing fashion.

Conclusion

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
